The Drawing Copy Service

Copies of drawings may be purchased from our Drawing Officer. These drawings are primarily those held in our Archives but a number of other drawings from other sources are also included in the lists. When ordering, please use the reference number given in the Copy Service Drawing Lists and not those given in the Archive Drawing List.

Drawing Lists

The Drawing List has been divided by subject into four sections for ease of use and downloading:

- **Locomotives** – Locomotives, tenders and components.
- **Rolling Stock** – Carriages & Non-Passenger Coaching Stock.
- **Goods** – Goods stock, Cranes and Departmental Stock
- **Maps, Miscellaneous, Plans** – Maps, Plans & Miscellaneous items.
- **Road, Signals, Tool, Track** – Road vehicles, Signals, Tools & Track.

The files are in PDF format, allowing searches by words and phrases using free PDF viewing programs such as Adobe Acrobat. Within each list the drawings are organised by subject (not by Drawing Number).

See [prices and ordering](#).

Offer Drawings

We are always looking to expand this collection of drawings. If you have drawings that you can give or loan to the society please give us [some details](#) here.
